Job Description					
<p>Precision Group have been providing professional, managed services and innovative solutions to customers across the UK & Ireland for almost 40 years.</p> <p>We offer a diverse range of services including Facility Support, Building Services, Engineering and Industrial Support together with Environmental Solutions & Waste Management.</p> <p>Due to continued expansion within our Precision Processing Division, we are looking for a proactive and experienced Operations Manager to lead and coordinate all aspects of our industrial chemical cleaning operations based in our thermo-chemical facility in Campsie. This role involves the day-to-day management of plant operations, staff, equipment, compliance, and service delivery. The ideal candidate will have a strong background in Engineering, chemical handling, and health & safety regulations, as well as excellent leadership and organisational skills.</p>					
ROLE AND RESPONSIBILITIES					
<ul style="list-style-type: none">• Lead, manage, and coordinate operations for industrial chemical cleaning services across a range of sectors including manufacturing, utilities, and energy.• Plan and oversee daily job schedules, workforce deployment, and equipment logistics.• Ensure all operations comply with UK and NI safety legislation (including HSE NI, COSHH, ADR, and PPE regulations).• Promote and enforce a strong health, safety, and environmental culture across all sites.• Oversee maintenance and readiness of equipment.• Ensure jobs are delivered safely, efficiently, on time, and to client satisfaction.• Develop and implement operational strategies to improve efficiency, reduce costs, and drive continuous improvement.					

- Monitor stock levels and procurement of chemicals, PPE, and tools in coordination with suppliers and logistics partners.
- Manage operational budgets and performance KPIs, reporting regularly to senior leadership.
- Maintain accurate operational records and documentation, including job reports, safety audits, and equipment checklists.
- Respond to emergency or unplanned work, including mobilisation for shutdowns and rapid-response projects.
- Responsible as part of Management Team for developing new business both in terms of new processes and new customers.
- Willingness to travel to join in customer and supplier visits and audits.

QUALIFICATIONS AND EDUCATION REQUIREMENTS

- 10+ years' experience in operations management within the industrial services, mechanical engineering or chemical engineering sector.
- Strong working knowledge of chemical cleaning processes and associated risks.
- Demonstrable leadership experience with multi-skilled site teams.
- In-depth understanding of health & safety standards in Northern Ireland.
- Full clean UK driving licence.
- Excellent communication, planning, and interpersonal skills.
- Willingness to work hands-on with process operations and to undertake out of hours work where necessary.
